2. A Member State shall notify the Council of Ministers of all fiscal charges applied by it where, although the rates of charge, or the conditions governing the imposition of collection of the charge, are not identical in relation to the imported goods, and to the like domestic goods, the Member State applying the charge considers that the charge is, or has been, consistent with sub-paragraph (a) of paragraph 1 of this Article. 2. A vessel which is registered shall be regarded as a vessel of the Member State in which it is registered.

3. "Materials" includes products, parts and components used in the production of the goods.

4. Energy, fuel, plant, machinery and tools used in the production of goods within the Market Area, and materials used in the maintenance of such plant, machinery and tools, shall be regarded as wholly produced within the Market Area when determining the origin of those goods.

Rule 3—Application of Percentage Criterion

For the purposes of sub-paragraph (c) of paragraph 1 of Article 6—

(c) in cases not within sub-paragraphs (a) and (b), goods shall be treated as a single article if they are so treated for purposes of assessing customs duties by the importing Member State.

Rule 5—Segregation of materials

1. For those products or industries where it would be impracticable for the producer physically to segregate materials of similar character but different origin used in the production of goods, such segregation may be replaced by an appropriate accounting system, which ensures that no more goods received Market Area tariff treatment than would have been the case if the producer had been able physically to segregate the materials.

2. Any such accounting system shall conform to such conditions as may be agreed upon by the Member States concerned in order to ensure that adequate control measures will be applied.

Rule 6—Treatment of mixtures

1. In the case of mixtures, not being groups, set or assemblies of separate articles dealt with under Rule 4, a Member State may refuse to accept as being of Market Area origin any product resulting from the mixing together of goods which would qualify as being of Market Area origin with goods which would not so qualify, if the characteristics of the products as a whole are not essentially different from the characteristics of the goods which have been mixed.

2. In the case of particular products where it is, however, recognised by Member States concerned to be desirable to permit mixing of the kind described in the foregoing paragraph, such products shall be accepted as of Market Area

origin in respect of such part thereof as may be shown to correspond to the quantity of goods of Market Area origin used in the mixing, subject to such conditions as may be agreed upon.

Rule 7— Treatment of Packing

1. Where for purposes of assessing customs duties a Member State treats goods separately from their packing, it may also, in respect of its imports consigned from another Member State, determine separately the origin of such packing.

2. Where paragraph 1 of this Rule is not applied, packing shall be considered as forming a whole with the goods and no part of any packing required for their transport or storage shall be considered as having been imported from outside the Market Area, when determining the origin of the goods as a whole.

3. For the purpose of paragraph 2 of this Rule, packing with which goods are ordinarily sold by retail shall not be regarded as packing required for the transport or storage of goods.

Rule 8— Documentary Evidence

1. A claim that goods shall be accepted as eligible for Market Area tariff treatment shall be supported by appropriate documentary evidence of origin and consignment. The evidence of origin shall consist of either—

(a) a declaration of origin completed by the last producer of the goods within the Market Area, together with a supplementary declaration completed by the exporter in cases where the producer is not himself or by his agent the exporter of the goods.

(b) a certificate given by a government authority or authorised body nominated by the exporting Member State and notified to the other Member States together with a supplementary declaration completed by the exporter of the goods.

These declarations, certificates and supplementary declarations shall be in such form as may be agreed by the Governments of all the Signatory States, and a copy of such Agreement shall be deposited with the Government of Saint Lucia by which certified copies shall be transmitted to all other signatory and participating States. The agreed forms shall, for the purposes of paragraph 5 of Article 6 be deemed to form part of this Annex.

2. The exporter may choose either of the forms of evidence referred to in paragraph 1 of this Rule. Nevertheless the authorities of the country of exportation may require that certain categories of goods and evidence of origin shall be furnished in the form indicated in sub-paragraph (b) of that paragraph.

3. In cases where a certificate of origin is to be supplied by a governmental authority or an authorised body under sub-paragraph (b) of paragraph 1 of this Rule, that authority or body shall obtain a declaration as to the origin of the goods given by the last producer of the goods within the Market Area. The governmental authority or the authorised body shall satisfy themselves as to the accuracy of the evidence provided; where necessary they shall require the production of additional information, and shall carry out any suitable check. If the authorities of the importing Member State so require, a confidential indication of the producer of the goods shall be given.

4. Nominations of authorised bodies for the purpose of sub-paragraph (b) of paragraph 1 of this Rule, may be withdrawn by the exporting Member State if the need arises. Each Member State shall retain, in regard to its imports, the right of refusing to accept certificates from any authorised body which is shown to have repeatedly issued certificates in an improper manner, but such action shall not be taken without adequate prior notifications to the exporting Member State of the grounds for dissatisfaction.

5. In cases where the Member States concerned recognise that it is impracticable for the producer to make the declaration of origin specified in sub-paragraph (a) of paragraph 1 or in paragraph 3 of this Rule, the exporter may make that declaration in such form as those Member States may for the purpose specify.

6. The Council of Ministers may decide that further or different provisions concerning evidence of origin of or consignment shall apply to particular categories of goods or classes of transactions.

Rule 9—Verification of Evidence of Origin

1. The importing Member State may as necessary require further evidence to support any declaration or certificate of origin furnished under Rule 8.

2. The importing Member State shall not prevent the importer from taking delivery of the goods solely on the grounds that it requires such further evidence, but may require security for any duty or other charge which may be payable.

3. Where, under paragraph 1 of this Rule, a Member State has required further evidence to be furnished, those concerned in another Member State shall be free to produce it to a governmental authority or an authorised body of the latter State, who shall, after thorough verification of the evidence, furnish an appropriate report to the importing Member State.

4. Where it is necessary to do so by reason of its legislation, a Member State may prescribe that requests by the authorities of importing Member States for further evidence from those concerned in the Member State shall be addressed to a specified governmental authority, who shall after thorough verification of the evidence furnish an appropriate report to the importing Member State.

5. If the importing Member State wishes an investigation to be made into the accuracy of the evidence which it has received, it may make a request to that effect to the other Member State or States concerned.

6. Information obtained under the provisions of this Rule by the importing Member State shall be treated as confidential.

Rule 10—Sanction

1. Member States undertake to introduce legislation, making such provision as may be necessary for penalties against persons who, in their territory, furnish or cause to be furnished a document which is untrue in a material particular in support of a claim in another Member State that goods should be accepted as eligible for Market Area tariff treatment. The penalties applicable shall be similar to those applicable in cases of untrue declarations in regard to payment of duty on imports.

2. A Member State may deal with the offence out of court, if it can be more appropriately dealt with by a compromise penalty or similar administrative procedure.

3. A Member State shall be under no obligation to institute or continue court proceedings, or action under paragraph 2 of this Rule—

(a) if it has not been requested to do so by the importing Member State to which the untrue claim was made; or

(b) if, on the evidence available, the proceedings would not be justified.
