OBJECTS AND REASONS

This Bill intends to introduce the Tanzania Extractive Industries, Transparency and Accountability Act, for the purpose of establishing the Extractive Industries, Transparency and Accountability Committee whose prime duty is to ensure that there is transparency and accountability in extractive industry. In securing transparency and accountability of extractive industries, this Bill responds to challenges faced by the Government in managing extractive industries including low contribution of the industry to the National Growth Domestic Product (GDP) as compared to the sector growth, inadequate capacity of the Government institutions in administering the sectors, lack of transparency in disclosing information relating to the investment of extractive industries and revenues accrued from natural resources extraction.

The Bill is divided into seven Parts.

Part I provides for preliminary matters including the name of the proposed Act, its scope of application and interpretation of various terms used in the proposed Act.

Part II deals with administrative provisions. The Part elaborates on the establishment of the Extractive Industries, Transparency and Accountability Committee, its composition, its powers and functions, tenure and manner of conduct of its proceedings. In the implementation of its powers and functions, and for the

better governance of the extractive industry, the Committee is required to report to the Minister. In order to further facilitate the Committee to carry out its functions effectively, the Minister is empowered to appoint the Executive Secretary who shall head the secretariat that is vested with the duty of implementing the activities of the Committee.

Part III sets out obligations of extractive companies and statutory recipients. Under this part, extractive companies and statutory recipients are obliged to abide by the threshold set by the Committee in order for it to qualify for reconciliation. The companies and statutory recipients are also required to submit to the Committee information and data containing all forms of taxes, charges made to the government and revenue on receipts, an annual report containing information on local content and corporate social responsibility, respectively.

This Part not only imposes obligations to extractive companies and statutory recipients but it also imposes a duty on the Minister to publish, through the website and other forms of media, information relating to concessions, contracts and licences relating to extractive companies, names and shareholders of persons who own interest in the extractive industry and level of implementation of environmental management plans.

Part IV provides for the appointment and the role of the Reconciler. The Reconciler to be appointed shall be independent and his role shall be to reconcile and verify payments made by the extractive industry companies and revenue received by the Government and there after prepare a report on the activities of the extractive industry for a particular reporting period. The report is to be submitted to the Committee for consideration and publication.

Part V relates to the role of the Controller and Auditor General in the activities of the extractive industry. The Committee is required to report to the Controller and Auditor General any material discrepancy put forward by the report of the reconciler. The Controller and Auditor General is then moved to investigate the allegations basing on any discrepancy reported and recommend to the Committee for the appropriate action to be taken.

Part VI deals with general provisions. This Part provides for, among others, the sources of the fund of the Committee together with the duty of the Minister to lay before the Parliament a report on the implementation of the activities conducted under the proposed Act. It also gives power to the Minister to make regulations and to specify any natural resource.

Additionally, the Part recognizes all mineral development agreements and production sharing agreements or any other agreement signed prior to coming into

effect of the proposed Act. This part also makes it an offence for any person or company to refuse to give information or to give false information to that effect.

Last but not least, Part VII of this Bill proposes to make consequential amendments to various laws that will, in one way or another, be affected by the coming into force of the proposed Act and also for the effective implementation of the proposed Act. The Part proposes to amend the Mining Act, Cap. 123, the Tanzania Electricity Act, Cap. 131, and the Income Act, Cap. 332

Kamati hii itakuwa na jukumu la kuhakikisha kuwa kuna uwazi na uwajibikaji kwenye suala zima la tasnia ya uchimbaji wa madini. Muswada pia unakusudia kukabiliana na changamoto zinazoikabili Serikali katika usimamizi wa tasnia ya uchimbaji madini, ikijumuisha mchango mdogo wa tasnia kwenye pato la taifa ikilinganishwa na ukuaji wa tasnia hiyo, uwezo mdogo wa Taasisi za Serikali katika kusimamia sekta ya madini, kutokuwa na uwazi kuhusiana na utoaji wa taarifa za uwekezaji katika tasnia ya uchimbaji pamoja na mapato yatokanayo na uchimbaji wa rasilimali za madini.

Katika utekelezaji wa majukumu na mamlaka yake na kwa ajili ya utekelezaji bora wa masharti ya Sheria hii, Kamati inawajibika kutoa taarifa ya utekelezaji kwa Waziri. Ilikuiwezesha Kamati kutekeleza majukumu yake ipasavyo Waziri amepewa mamlaka ya kumteua Mtendaji Mkuu wa Sekretarieti itakayo fanya shughuli za Kamati.

Sehemu ya Tatu inaweka wajibu kwa makampuni yanayojihusisha na tasnia ya uchimbaji na taasisi za serikali zinazokusanya mapato kutoka katika sekta ya madini kuweka wazi kumbukumbu na taarifa za shughuli zao kwa Kamati. Pia inatoa wajibu wa Waziri kuchapisha kwa kupitia tovuti pamoja na vyombo vya habari taarifa kuhusiana na makubaliano, mikataba, leseni za uchimbaji wa madini, majina

ya wadau waliona maslahi kwenye makampuni ya uchimbaji wa madini na kiwango cha utekelezaji wa mipango ya usimamizi wa mazingira.

Sehemu ya Nne inaweka masharti kuhusiana na uteuzi wa Mlinganishaji wa taarifa za malipo na mapato (reconciler) kutoka kwenye makampuni yanayojihusisha na utafutaji na uchimbaji wa madini, mafuta na gesi asilia. Mlinganishaji pia atatakiwa kutoa taarifa kwa Kamati kwa ajili ya kuchapishwa na kuwekwa wazi kwa umma.

Sehemu ya Tano inahusu wajibu wa Mdhibiti na Mkaguzi Mkuu wa Hesabu za Serikali. Aidha, chini ya Sehemu hii, ni kosa kwa mtu yeyote au kampuni kukataa kutoa taarifa kwa mujibu wa masharti ya Sheria au kutoa taarifa za uongo. Vile vile, chini ya Sehemu hii, mikataba ya uchimbaji madini iliyoingiwa kabla ya kuanza kutumika kwa Sheria inayopendekezwa inatambuliwa kuwa na nguvu.
